

I Am Future

Verse 1

Eyes open now I see
Take the place marked out for me
Pressing forward, I won't stop
This is my day of stepping up

B-Section

I won't waver, I won't bend
This is my vow until the end
No retreating, no surrender
Always remember who I am

Pre-Chorus

I am wise I am pure
I obey all I have heard
In the darkness I will shine
'cause I know I am God's gold
I'm committed, I am core
I'll leave His mark in this world
I am future, I am future,
I am future...

Chorus

I am future
I am future

Verse 2

I am where I'm meant to be
Lord You can depend on me
I will make my present bow
I am Future, I seize it now

This is my vow until the end
No retreating, no surrender
Always remember who I am

I am wise I am pure

I Am Future (extended)

Intro

"I want our young people to become aware that you are our future
You are our longevity, you are our tomorrow

And we depend on you to rise up in strength
In the midst of a day when all the forces of darkness are targeting you
Every initiative, every strategic plan of the kingdom of darkness is coming to decapitate our youth
To drift you, to corrupt you, to twist your standards
And we say NO!
We say in this day of darkness, in this day of brokenness
We declare a new day of building, we declare a new thrust forward
And we push our young people and say:
You are the future, rise up and stand!
You're not going to be defeated, you're not going to be cast down
You are ordained for victory
You are ordained to be strong
You are ordained to walk into the midst of Babylon and to shine like lights in the darkness of the world
You are our future.”
